Dear Allegheny Valley School District Parent/Guardian:

The Allegheny Valley School District nurses recently activated a SeeSaw account, which is the same as what your child's teacher has been using. The SeeSaw application has proven quite successful as a communication tool, and it will be utilized by the school nurses to communicate with you regarding your child. As nurses, we know it is important to inform you of your child's visit to the school's health office, the reason for the visit and the outcome. We will be using SeeSaw to send the *Nurse's Note* to you. SeeSaw will be used to make you aware of simple situations with your child when he/she comes to the health office. This will also confirm, after the treatment and assessment, your child is medically cleared to remain in school. Examples of such visits would be scraped knees or simple first aid injuries from recess requiring rest or an ice pack and/or generalized stomachaches and headaches that result in your child resting in the health office, no fever, and returning to class. If you have any questions or need further information, do not hesitate to contact a building nurse.

If your child is not feeling well and it is determined that he/she cannot or should not remain in school, you will be contacted by the phone numbers you have provided so that your child can be picked up from school. Please note: If you are not currently connected with the SeeSaw app, you will be contacted by phone at the numbers provided through the Parent Portal.

SeeSaw will be used to inform you of upcoming vision and hearing screenings as well as physical and dental exam dates and times. Moreover, any additional informational health updates and flyers will be sent through SeeSaw.

If you have any questions, please directly contact me at 724-274-2110.

Thank you,

Kandi Conner, RN, BSN  
Certified School Nurse
