Biographical Information

Please provide information essential to the nomination criteria provided including: education/training, profession/work history, honors/awards received.

Please respond to the following questions.

1. Describe how your candidate has excelled in his/her career to achieve outstanding recognition in his/her field. It is important that (1) you specifically identify the nominee's career, and (2) you understand that standard advancement or career progression due to established procedure does not constitute outstanding career recognition; an individual must go above and beyond normal advancement procedures.

2. Describe how your candidate has impacted the lives of others both in and out of his/her career to inspire them to have a positive impact on society.

3. Describe ways in which your candidate has made a meaningful contribution to the service of others. Please understand that there is a difference between what an organization accomplishes and what an individual accomplishes. It is necessary to describe specific activities that your nominee has taken part in and accomplished for the good of the community that go beyond membership in social organizations that aid community members.

4. Explain how your candidate is a life-long learner and exhibits this quality as part of his/her daily life.

5. Describe why this person deserves to be inducted into the Alumni Hall of Fame. (This information should be an overview of the outstanding qualities of your candidate. Subjective praise - as opposed to documented accomplishments - may not be enough to distinguish the candidate.)
